

## The Bree Collaborative Primary Care Charter and Roster

### Problem Statement

Primary care is widely identified as the cornerstone of the health care system, serving as a usual source of care for the majority of people that is focused on acute and chronic disease detection, management, and treatment, and prevention.<sup>1</sup> While primary care contributes to reduction in morbidity and mortality, access to regular, high-quality care is a challenge for many.<sup>2</sup> The United States spends between 5-7% of total health care dollars on primary care.<sup>3</sup>

### Aim

- Define primary care services
- Define primary care providers
- Payment redesign

### Purpose

To propose evidence-based recommendations to the full Bree Collaborative on:

- Defining care delivery pathways ...
- Standard evaluation
- Educational standards
- Payment models
- Addressing health disparities
- Process and patient outcome metrics
- Addressing barriers to integrating recommendations into current care systems
- Identifying other areas of focus or modifying areas, as needed

### Duties & Functions

The Primary Care workgroup will:

- Research evidence-based and expert-opinion informed guidelines and best practices (emerging and established).
- Consult relevant professional associations and other stakeholder organizations and subject matter experts for feedback, as appropriate.
- Meet for approximately nine months, as needed.
- Provide updates at Bree Collaborative meetings.
- Post draft report(s) on the Bree Collaborative website for public comment prior to sending report to the Bree Collaborative for approval and adoption.
- Present findings and recommendations in a report.
- Recommend data-driven and practical implementation strategies.
- Create and oversee subsequent subgroups to help carry out the work, as needed.
- Revise this charter as necessary based on scope of work.
