Q1 **Provider (MD, DO, ARNP, PA)**

What sector do you represent? (Choose the option that is the best fit.)

Q2
Do you have comments broadly on the cervical cancer screening focus areas (page 2)?

Q3
Do you have comments on the checklist for delivery systems (page 3)?

Q4
Do you have comments on the checklist for patients and family members (page 4)?

Q5
Do you have comments on the checklists for health plans, employers, or state government (page 4-5)?

Q6
Are there any errors in the report or anything our report is missing?

Q7

How can our guideline better address health disparities?

Include a recommendation that WA State work with Federal agencies including FDA toward approval and availability of self-swab for Amercian's with Cervixes. These recommendations seem to condone FDA delay/undue influence of industry on blocking approval of HPV self-swab. Would like to see bolder action/advocacy recommendations to government from Bree on this evidence based care option for people with cervixes.

Q8

Do you have any general comments?

.
