

Social Needs and Health Equity Steering Committee
Social Need Screening Workgroup
Proposed Deliverables

Deliverable	Goals	Timeline/Priority
Report on the Importance of Screening	Make the case for social needs screening, acknowledging barriers for front-line staff and patients alike. Present evidence for screening and use of screening data to benefit patients.	
Guidelines for Screening Workflows	Determine how to best conduct screening, in alignment with upcoming requirements from the NCQA. Consider screening tools, workflows, roles and responsibilities, and coding for screening tools	
Guidelines to Connect Screening Tool to Interventions	Work with interventions workgroup to determine how screening for social need can inform interventions.
