Sub-Group Discussion Guide

March 9th, 2023

Discussion Guide:

We will break into small groups based on our five sub-groups for the Quintuple Aim. The five sub-groups are Cost/Value, Care Experience, Population Health, Burnout and Wellbeing, and Equity. Each sub-group will be responsible for refining their goals, identifying relevant research, and briefly presenting (10 – 20 minutes) their findings at future workgroup meetings.

At today's meeting, we will give time for each sub-group to meet together and begin to build a work plan. Some key questions to answer with your group include:

- 1) What are your goals for the workgroup? Use the SMARTIE Goal Spreadsheet to identify several workgroup goals.
- 2) What topic or questions will you need to research to achieve the goals? Brainstorm several topics or themes that will require further research.
- 3) How might your goals/topics overlap with other sub-groups?
- 4) How will you divide the work? What is the best way to communicate outside of workgroup meetings?
