

Bree Collaborative Meeting

July 26, 2023 | Zoom Meeting

Agenda

- **Welcome and Introductions**
 - Staff Updates
 - Action Item: Adopt March Minutes
- **Bree New topic selection for 2024 reports Survey Responses**
 - Public Submissions
 - Bree Member submissions
 - Discussion
- **Discussion:** Bree Topics for 2024 Reports
 - Goal: 6-8 topics to further discuss in September
 - 2 former topics to revisit, and 1 new topic
- **Next Steps and Close**

Meeting Minutes: March 2023

Dr. Robert Bree Collaborative Meeting Minutes May 24th, 2023 | 1:00-3:00 Held Virtually

Members Present

Hugh Straley, MD, Bree Collaborative (Chair)
Colleen Daly, PhD, Microsoft
Kathy Davis (for June Alteras), DNP, RN, MBA,
Multicare
DC Dugdale, MD, MS, University of Washington
Sharon Eloranta, MD, Washington Health Alliance
Gary Franklin, MD, Washington State Department
of Labor and Industries
Mark Haugen, MD, Walla Walla Clinic
Darcy Jaffe, MN, ARNP, FACHE, Washington State

Hospital Association
Norifumi Kamo, MD, MPP, Virginia Mason
Franciscan Medical Center
Carl Olden, MD, Pacific Crest Family Medicine
Mary Kay O'Neill, MD, MBA, Mercer
Susane Quistgaard, MD, Premera Blue Cross
Angie Sparks, MD, UnitedHealthcare
Judy Zerzan-Thule, MD, MPH, Washington State
Health Care Authority

Members Absent

Colin Fields, MD, Kaiser Permanente
Greg Marchand, The Boeing Company
Kimberly Moore, MD, Franciscan Health System

Susie Dade, MS, Patient Representative
Kevin Pieper, MD, MHA, Kadlec Regional Medical

New Topic Survey Responses Public Responses

July 26, 2023 | Zoom Meeting

Public Responses-Overview

- 17 responses
- Questions
 - Topic
 - Summary
 - Resources
- Topics submitted may be appropriate as a report or could be a component into a report depending on topic chosen

Public Responses-Behavioral Health

- Elimination of non-evidence-based buprenorphine dose limits
- Long term treatment of the severely mentally ill
- Mental Health Crisis Support
 - 988 Crisis Response System- How the Entire Washington State 988 Behavioral Health Crisis Response System works
 - Is it time to scrap the Designated Crisis Response system for involuntary treatment of psychiatric patients?
 - Concern delay in response

Public Responses-Chronic disease

- Medical/Dental co-management of systemic inflammation driving cardiovascular disease (e.g. Diabetes) and Periodontal Disease; leading both to exacerbate each other.

Public Responses-Climate change

- **Coping with extreme heat** (clinical needs from providers, guidance from public health, resources from payers, best practices with heat advisories, equity lens) I have some interesting data from the APCD could share related to this topic too.
- **Decarbonization initiatives** (how the healthcare industry could collaborate to mitigate impacts and emissions) - could have focus for example on inhaled anesthetics, or new clean building standards that are coming up
- **Implementing sustainability practices in healthcare** (waste, energy, transportation, food, supplies, greening the OR, etc)

Public responses- Discharge

Discharge delays for children in hospitals who cannot go home without access to private duty nursing (PDN) services.

Public responses- Emergency Response

Development, alignment, and sustainability of Community Paramedicine initiatives in Washington state

Public responses- Eating Disorders

Increasing access to non-stigmatized care for individuals with eating disorders

Public responses-Language

- Language Access in Health Care Settings

Public responses-Maternal health

- Increased utilization of midwives and doulas
- Centering Pregnancy Model to improve outcomes and reduce preterm birth particularly for Black women.

Public responses-Obesity

- Addressing Obesity in Washington
- Evaluating and Treating Child and Adolescent Obesity

Public responses-Oncology Prevention

- Genetic testing for cancer

Public responses-Surgery

- Replace informed consent with shared decision-making
- Improving Perioperative Patient Optimization through screening and management of physiological disease prior to surgery

New Topic Survey Responses Bree Members

July 26, 2023 | Zoom Meeting

Bree Member Responses Overview

- 12 Responses
- Asked about former topics
 - Should we revisit the topic? Yes or no
 - Difficulty of adoption 1-10 scale (1=very easy, 10=very hard)
- Please list your top two choices of former Bree report topics to be revised for 2024:
- New topics

Overall

Topic	YES	NO	Difficulty of Adoption 1=very easy, 10=very hard	Difficulty of adoption, weighted
Hospital readmissions (2014)	54.5%	45.5%	5.50	3.14
Integrating behavioral health into primary care (2016)	45.5%	54.5%	8.25	4.13
Bariatric surgery (2016)	40.0%	60.0%	5.40	2.31
Low Back Pain management	40.0%	60.0%	4.25	2.43
Treatment for opioid use disorder (2016)	40.0%	60.0%	7.67	4.93
Obstetric care (2012)	36.4%	63.6%	5.00	3.21
Alzheimer's disease and other dementias (2017)	30.0%	70.0%	5.33	3.05
Advance care planning for end of life (2014)	27.3%	72.7%	5.00	3.57

Please list your top two choices of former Bree report topics to be revised for 2024:

Topic	Count
Addiction and substance use disorder screening and intervention	5
Bariatric Surgery	4
Treatment for opioid use disorder	4
Hospital readmissions	3
Alzheimers Dementia	2
Integrating behavioral health into primary care (2016)	2
Obstetrics	2
Cervical Cancer Screening	1
Infection Prevention	1

Theme	Topic
Climate Change*	
	Heat Management*
	Air Quality
	Health system contributing to greenhouse gas/climate change*
	heat domes*, fires, flooding, and vector born diseases.
ER	
	Appropriate ER Use
	Reducing avoidable ER visits.
Obesity*	
	Addressing Obesity in Washington*
	Evaluating and Treating Child and Adolescent Obesity*
	Addressing weight bias
	Obesity management including medications and behavioral support
	GLP1
Oncology	
	Genetic screening for cancer*
	Cancer biomarker testing- variability by clinic and coverage (HICOR)
	Tobacco use screening/intervention and lung cancer screening
Other	
	to look at services we are providing that our outdated and not needed any longer
Technology	
	AI
	Health care data interoperability

*=also mentioned in public survey

Discussion

Behavioral Health		Eating Disorders	
	Elimination of non-evidence-based buprenorphine dose limits		Increasing access to non-stigmatized care for individuals with eating disorders
	Long term treatment of the severely mentally ill.		
	988 Crisis Response System- How the Entire Washington State 988 Behavioral Health Crisis Response System works	Language	
			Language Access in Health Care Settings
	Is it time to scrap the DCR system for involuntary treatment of psychiatric patients?	Maternal Health	
Chronic Disease			Increased utilization of midwives and doulas
	Medical/Dental co-management of systemic inflammation driving cardiovascular disease (e.g.Diabetes) and Periodontal Disease; leading both to exacerbate each other.	Obesity	
			Addressing Obesity in Washington Evaluating and Treating Child and Adolescent Obesity
Climate Change			Addressing weight bias
	Coping with extreme heat (clinical needs from providers, guidance from public health, resources from payers, best practices with heat advisories, equity lens)		Obesity management including medications and behavioral support
	Decarbonization initiatives (how the heathcare industry could collaborate to mitigate impacts and emissions)		GLP1
	Implementing sustainability practices in healthcare (waste, energy, transportation, food, supplies, greening the OR, etc)	Oncology Prevention	
	Air Quality		Genetic screening for cancer
	Health system contributing to greenhouse gas/climate change		Cancer biomarker testing- variability by clinic and coverage (HICOR)
	heat domes*, fires, flooding, and vector born diseases.		Tobacco use screening/intervention and lung cancer screening
		Other	
Discharge			to look at services we are providing that our outdated and not needed any longer
	Discharge delays for children in hospitals who cannot go home without access to private duty nursing (PDN) services.	Surgery	
Emergency Response			Replace informed consent with shared decision-making. Improving Perioperative Patient Optimization
	Appropriate ER Use	Technology	
	Reducing avoidable ER visits.		AI
	Development, alignment, and sustainability of Community		Health care data interoperability

Closing

Next meeting

- Voting on 3 topics
- Next meeting Wednesday, September 27th
- In person at the FHCQ office in downtown Seattle.
- Virtual option for individuals who cannot travel
