

## Personal Protective Equipment Donations

COVID-19 has led to a shortage of personal protective equipment in our state's hospitals and clinics. Our community needs additional equipment, especially masks, to stop the spread of COVID-19 and protect staff who are testing and caring for patients in our health care systems.

We are asking our dental community and those who work in industries such as painting and construction to donate extra personal protective equipment masks including N95 masks to your nearest hospital or clinic. Hospitals are able to receive donations of masks directly through loading docks with specific needs and directions below.

This ask comes from the WA Healthcare Forum and the Foundation for Health Care Quality who are convening leaders from delivery systems and plans to address the novel coronavirus crisis.

If your organization would like to be added to this list please contact Kinsey Gray ([Kgray@qualityhealth.org](mailto:Kgray@qualityhealth.org))

**Confluence Health:** Please contact the Confluence Health Foundation directly to determine how you can donate supplies. Email [foundation@confluencehealth.org](mailto:foundation@confluencehealth.org) Phone: (509) 436-6275

**Multicare:** Please take donations directly to the loading dock of their Tacoma General Hospital 315 M M.L.K. Jr Way, Tacoma, WA 98405

**Seattle Children's:** is looking for basic isolation masks, 3M N95 masks (specifically the 1860, 1860s, and 1870), and surgical masks. They are not accepting gloves at this time.

They will accept curbside drop off of unopened boxes or bags of masks between 9am-3pm M-F at the Seattle Children's Guild Association Office. They are located within the Seattle Children's Administrative Building located at 6901 Sand Point Way NE, Seattle, WA 98115. They will get these items to the hospital; please do not drop off supplies at the hospital. Please call 206-987-7000 when you arrive and we will come out to your vehicle.

They will also accept curbside drop off between 9am-3pm M-F at the Seattle Children's Bellevue Clinic located at 1500 116th Ave. NE, Bellevue, WA 98004.

If you have questions, please call 206-987-2153.

**Virginia Mason** is looking for basic isolation masks, face masks with a shield, N95 masks, shoe or boot covers, Isolation Gowns and Hand Sanitizer. Their preference is to please donate items that are still in the original packaging or boxes so they can have instructions for use if the item is different from their usual product. However, they will not turn away any available donations and are working with the Puget Sound Health Care System to redistribute donations that they cannot use.

Please email Sean Farley ([sean.farley@virginiamason.org](mailto:sean.farley@virginiamason.org)) to coordinate drop off at their Seattle Location's loading dock. (preferably M-F between 7:30AM-3:30PM)
