11:00 a.m. Welcome Randy Moseley

11:10 a.m Presentation: MedStar Health’s Diagnostic Safety Capacity Building Bryan Buckley

Bryan Buckley from MedStar Health was awarded a contract to support the AHRQ in developing capacity related to understanding and improving diagnostic safety. The project will engage subject matter experts from across the country to help develop new approaches and resources to improve diagnostic safety. Select resources will include a TeamSTEPPS® module to enhance communication among providers related to diagnosis, a resource to engage patients and families in the diagnostic process, and tools to guide clinicians and frontline quality and safety professionals in their diagnostic improvement efforts.

11:50 p.m. Workplan Review
