History and Current Structure of PFACs

The first PFAC at PeaceHealth was established in 2008 and PH was an early adopter of this model

There are currently nine active PFAC's across the network supporting both inpatient and outpatient settings

PFAC's are largely led by Patient Experience Specialists, however there are additional PFAC's that are led by other local leaders

Currently, advisors contribute by participating in monthly face to face meetings

Reward & Recognition

Our community in Longview, Washington engaged their PFAC on COPD education. Their strong partnership allowed members of the PFAC to provide such valuable insights that it was adopted systemwide and CMS recognized their achievement.

Opportunity Categories

- PFAC Structure
- Recruitment and Retention
- PFAC Operations
- Feedback, Evaluation and Reporting

Questions for this Group

- Are there any ideas around measures of success or outcomes that we should consider?
- If your organization has struggled with diversity, how have you approached that?
- Are there any recruitment and retention best practices that you can share?
- What is your goal setting methodology?
