

The Washington Patient Safety Coalition (WPSC) provides members with several educational programs each year, including podcasts, webinars, and safe tables. Throughout the year WPSC work groups provide guidance for specific educational opportunities to meet their goals, but there is room for more varied educational programming. The WPSC Educational Advisory Committee would fill this gap by providing guidance for on-going educational content that can be implemented by staff.

**Purpose**

Provide advice and guidance to develop on-going educational content that can be implemented by staff.

**Key Function of the subcommittee:**

Suggest educational topics, faculty, and types of programming.

**Proposed Goals/Work Products:**

- Annual educational program.
- Suggested topics for educational content.
- Suggested speakers and writers for educational content.

**Reports to:**

Steering Committee

**Meeting Frequency:**

Every other month or as needed.

**Work Group Composition:**

Chair:

Members:

Staff: Nick Locke, Steve Levy

3+ Members

**Measures of Success**

- On-going calendar of educational activities
- Number of attendees to activities
- Post activity survey results
